Dear Colleague:

We have worked with many wellness providers before Wellco and were previously challenged with engaging our workforce and getting the measurable results needed to combat rising health care costs and direct our resources.

Since partnering with Wellco we have achieved 100% wellness program participation and targeted nearly \$250,000 in annual avoidable health costs.

We have recently focused on awareness, top-of-mind prevention and a push for actionable wellness. As a result, we have decreased our medical costs by more than 15%. We could not have done it without Wellco and the measurable results they provide. Wellco's systems and guidance are the best and most effective in the industry by far.

Wellco does much more than provide corporate health and wellness programs. **Wellco fixes health and wellness programs**. It is without hesitation that I highly recommend Wellco to your company as a core business strategy.

If you have questions feel free to contact me at (248) 474-9527.

Sincerely,
