

Dear Colleague:

Before working with Wellco, we worked with quite a few corporate wellness companies without finding the expertise to address health before it became costly or before fully engaging our workforce. We struggled with a lot of the things that you probably struggle with; increased participation, getting people involved on a regular basis, and health cost containment.

Then, we were fortunate enough to partner with Wellco. I'm proud to say we've been able to achieve the unheard of 100% participation in our most recent HealthHammer testing. Wellco provides targeted scorecards, actionable metrics, and measurable outcomes.

Wellco helped us achieve the unheard of 100% participation. As a result we're on our way to a 4:1 return on investment. We couldn't have done it without Wellco.

We are very appreciative. I highly recommend Wellco to your company. If you have any questions feel free to contact me at 248.471.2230.

Sincerely,
