Dear Colleague:

Mr. Scott Foster was the keynote speaker the Michigan HR Day conference in June of this year, which had a sold out crowd of over 800 participants.

Scott successfully engaged the audience delivering entertaining stories and providing innovative strategies and insights that they can apply to their professional and personal lives. We have received much positive feedback about Scott from our participants, and we have very much enjoyed working with Scott and his staff on this successful event.

Scott was able to provide the type of program we needed for our group, within the budget allowed. If you are searching for a remarkable speaker who is also a pleasure to do business with, I highly recommend Scott Foster.

Sincerely,

A handwritten signature in black ink, appearing to read "Jeremy S. Stephens".
