

# Quack Attack

## The Onslaught of Media and Medical Misinformation and What You Can Do to Take Back Your Health

Scott Foster, President, Wellco

1. Have you, or someone close to you, had a heart attack or stroke?
2. Do your doctor visits and conversations seem hurried?
3. Do you think your current health habits, physical activity or cholesterol levels protect you as a catchall from dangerous conditions?

If you answered yes to even 1 of the above questions you need this seminar!

Participants will learn to:

- Identify the five fatal factors that are the real indicators of health and the test that could save your life.
- Evaluate ineffective, hyped and fraudulent health information.
- Summarize the eye-opening questionnaire that reveals the misconceptions you have about what contributes to and what compromises your health.
- Describe the WellWise™ takeaway

*"Scott's system saved us more than \$200,000.*

Robert Casalou, President, Providence Hospital

*"Scott Foster is a great speaker. He makes people feel what he is saying. He is a recognized leader in health ROI. I strongly recommend Scott Foster for your next event."*

-Bridget Johnson, Director of Operations, AGIS

*"Scott has consistently been our most popular and most effective speaker for more than 10 years."*

-Karen Sherman, St. John Health System

*"Scott Foster is a powerful speaker. Scott's message reached me in a very personal way and his compassion and energy were obvious throughout his program. Our staff is still buzzing about Scott's strategies."*

- AnnMarie Connolly, Human Capital Enthusiast
