

Dear Colleague:

As the CEO of the company, I found HealthHammer to be the most valuable benefit we have ever provided to our staff. While this was a totally voluntary activity I was pleasantly surprised to find that almost 100% of our employees participated. The fact that our staff is better educated on their personal health status and knows how they can continuously improve in the future is invaluable. The scorecard provides measurable outcomes to benchmark our progress and continue to improve. I can just feel the good health spreading through our offices.

I highly recommend HealthHammer and Wellco Corporation to your company.

Sincerely,

A handwritten signature in blue ink that reads "Brad Frederick". The signature is written in a cursive style with a prominent underline.
